

## **Meeting Report**

### **Public Meeting to Obtain Public Input on the Recreational Use Attainability Analysis of Dickinson Bayou Above Tidal**

The meeting was held at the Galveston County Consolidated Drainage District Office located at 1605 Whitaker Drive in Friendswood at 7:00 PM on January 29, 2010.

At this initial public meeting for the RUAA, Roger Miranda (TCEQ) presented a PowerPoint on background RUAA information, Jenny Wrast (UHCL) presented field survey sites. An open discussion was then initiated to determine if there were any other potential sampling sites within the segment that might show recreational use. Including TCEQ and UHCL staff, a total of 8 people were in attendance at the meeting. UHCL gained important information regarding a Girl Scout camp that is located on the bayou as well as hydrographic features of the segment not included with the information originally provided by the TCEQ, including the actual location of the headwater portion of Segment 1104, Dickinson Bayou Above Tidal.
